DETAILED ACTION

Claim 2 has been canceled by applicants' amendment, dated 10/4/04.

Allowable Subject Matter

Claims 1,3-11 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 4, and 6, the prior art of record does not disclose nor teach cyclically shifting an area on the slit illuminated by the electron beam and detected by the energy filter electron beam detector, while the energy dispersion section is turned on, in combination with remaining aspects of the claims. Since this aspect is not taught nor disclosed in the prior art of record, independent claims 1,4, 6, and dependent claims 3, 5,11,7, which also incorporate this aspect are deemed allowable over the prior art of record. Applicant's arguments', see amendment, filed 10/4/04, with respect to claims 1-11 have been fully considered and are persuasive.

With respect to independent claim 8, the prior art of record does not disclose nor teach repeating shifting of a position of the selected electron beam on the slit at least once from a first position where the selected electron beam is intercepted more by a first shield than by a second shield, via an intermediate position where the selected electron beam is intercepted equally by the first and the second shield, to a second position where the selected electron beam is intercepted more by the second shield

than by the first shield, in combination with the remaining aspects of the claim. Since this aspect is not taught nor disclosed in the prior art of record, independent claim 8 and dependent claims 9-10, which also incorporate this aspect are deemed allowable over the prior art of record. Applicant's arguments', see amendment, filed 10/4/04, with respect to claims 1-11 have been fully considered and are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
